hardcore developer training

Course Agenda

Introduction

Organizing
Your
Code

Writing
Controllers
and
Services

Writing
Directives
and
Views

Dealing
with
Scope

Communicating
Between
Components

Breaking Down
a Page Into
Components

Communicating
with the
Server

Dealing
with
Models

Prerequisites

Angular Fundamentals

node

Course Conventions

Best Practices

Deep Dives

Quizzes

Demos

`node web-server.js`

`http://localhost:8000/`

`github.com/joeames/
AngularBestPracticesFiles`

`Angular 1.2.0-rc2`

Tools

Webstorm

Chrome

Conclusion

Thanks for Watching!
